Though National in scope, data provided by Raptor Technologies, Inc. (Raptor) is compiled from multiple public record data sources. Raptor makes no claims to the completeness of its database or that data for all states or jurisdictions is included in its current product offerings. Raptor acknowledges that the service provided here does not always substitute for an in-person courthouse search of criminal records and Raptor recommends that its database products be added to end-users traditional screening methods. Raptor takes reasonable measures to update these records as available, but as in all public records, we rely on the completeness and accuracy of each state's records.
